# KF SERIES

Light, small and loud. The KF line arrays bring next-level fidelity and control to traditional mechanically-articulated array formats. Big performance from fewer, more compact arrays and precision audience focusing deliver true flexibility.

## KF730

The KF730 line array system is optimized for a wide range of touring and installation applications. With its exceptional output to size ratio, KF730 is the ideal solution for those applications where high output potential and unmatched sound quality is required in a lightweight compact package including touring sound, corporate A/V, sports arenas, houses of worship, performing arts centers, hotel ballrooms and live clubs.

CODE

## KF730P

The KF730 line array system is optimized for a wide range of touring and installation applications. With its exceptional output to size ratio, KF730 is the ideal solution for those applications where high output potential and unmatched sound quality is required in a lightweight compact package including touring sound, corporate A/V, sports arenas, houses of worship, performing arts centers, hotel ballrooms and live clubs.

CODE

## KF737

The KF737 line array system is optimized for a wide range of touring and installation applications. With its exceptional output to size ratio, KF737 is the ideal solution for those applications where high output potential and unmatched sound quality is required in a lightweight compact package including touring sound, corporate A/V, sports arenas, houses of worship, performing arts centers, hotel ballrooms and live clubs.

### **KF737P**

The KF737 line array system is optimized for a wide range of touring and installation applications. With its exceptional output to size ratio, KF737 is the ideal solution for those applications where high output potential and unmatched sound quality is required in a lightweight compact package including touring sound, corporate A/V, sports arenas, houses of worship, performing arts centers, hotel ballrooms and live clubs.

CODE

Availability:

**MSRP**

--

### **KF740**

The KF740 line array system is optimized for the widest possible range of touring and installation applications. With output capabilities resembling the much larger KF760 and a footprint and weight similar to the KF730, the KF740 is the ideal solution for a wide variety of applications.

CODE

**MSRP**

--

### **KF740P**

The KF740 line array system is optimized for the widest possible range of touring and installation applications. With output capabilities resembling the much larger KF760 and a footprint and weight similar to the KF730, the KF740 is the ideal solution for a wide variety of applications.

CODE

Availability:

**MSRP**

--

### **KF720**

KF720 delivers the three-way design, power and fidelity of the KF Series line array systems in an ultra-compact enclosure weighing less than 44 lbs. (19.8 kg). The exceptional output capability in a small, lightweight package allows KF720 to fill a range of application requirements from small theaters and houses of worship to live concerts and corporate events.

CODE

Availability:

**MSRP**

--

### **KF364**

The newest additions to the legendary KF Series of premium 3-way loudspeakers pack even more capability and application flexibility into an ultra-compact package. The integration of premium neodymium components, a co-axial mid/high frequency component and world-renowned crossover design into an adaptable enclosure offers unprecedented utility. They natively offer both portable features and M10 installation points.

CODE

### **KF810P | 80**

The KF810 line array system offers best-in-class output, true broadband pattern control, and integrated 3-way performance, hallmarks of the legendary KF series. The KF810P incorporates specific design features tailored for the installation market: clean aesthetics offered in black or white, invisible wiring, and concealed 3-point rigging. A weather rated option allows for long term permanent installation in demanding environments backed by EAW's full warranty.

# Adaptive

Adaptive systems have the unique ability to assess and then perfectly match the three dimensional performance requirements of any venue.

## OTTO

Otto is the world's first Adaptive™ subwoofer. Utilizing two Offset Aperture-loaded woofers paired with independent on-board amplification, processing and networking, Otto extends Adaptive Performance™ to the lowest octaves of the audible spectrum. Otto will perfectly balance low-frequency coverage with cancellation to suit the user's requirements; omni, cardioid, hyper-cardioid or anywhere in between from just a single module. Combined in arrays, Otto provides users with nearly endless possibilities in low-frequency pattern control.

## ANNA

Anna™ is the newest introduction to EAW's flagship line of Adaptive™ Systems, providing all the benefits of Adaptive performance in a high-output mid-sized enclosure. Weighing just 135 lbs. (61 kg), the extraordinary output-to-weight ratio makes Anna exceptionally versatile, with applications ranging from small clubs and houses of worship to large arenas and touring productions. Anna's 100° horizontal dispersion further extends the capabilities of Adaptive Systems; columns of Anna can be flown as mains or mixed with columns of Anya™ within the same array for even greater coverage possibilities. Like all Adaptive Systems,

## ANYA V2

EAW Anya is a complete, self-contained, high-power sound reinforcement system that adapts all performance parameters electronically, allowing it to be used in virtually any application. Columns of Anya modules hang straight, without any vertical splay, and Resolution 2 software adapts total system performance to produce asymmetrical output that delivers coherent, full-frequency range response across the entire coverage area as defined by the user. It is extremely powerful and immensely scalable, making it suitable for anything from small venues to the largest stadiums.

# RS SERIES

Our new RS Series is a family of 2-ways and subwoofers that utilise leading-edge touring-grade transducers and EAW Core Technology to produce unmatched fidelity and accuracy. The loud speakers benefit from EAW Focusing™, advanced digital signal processing that perfects the impulse response of a loudspeaker in the time domain. This eliminates horn “honk” and splashiness, giving the loudspeaker the quality of studio monitor sound instead of a “PA” speaker.

## RS121 115V BLACK

The RS Series delivers EAW signature performance in a portable and lightweight wooden enclosure. Each enclosure in the series is first designed around the latest breed of touring grade HF and LF transducers. The intelligent features of the series include EAW Focusing which provides unmatched musical clarity and tonal accuracy.
